BIOGRAPHY: Mr. Aaron Rennie, Technical Marketing Manager

Aaron has worked in the construction material supply industry for the last 8 years. His primary focus is on developing specifications and design support for Engineers and Architects. For the last four years, he has worked directly for manufacturers, responsible for projects and product distribution across Canada in industry segments ranging from the Alberta Oil Sands to civil infrastructure and residential development.

At Plasti-Fab, Aaron is responsible for Market Development in support of the innovative new products being launched into market, such as Radon Guard Insulation, and also the energy efficient building systems and components that Plasti-Fab makes.

BIOGRAPHY: Mr. Alan Whitehead, President & CEO of Radon Environmental

Management Corporation

For over 30 years Alan has served on the executive boards of a number of private and public sector companies, operating in a diverse range of industries globally. These sectors include environmental health and building sciences, mining exploration, chemicals and industrial minerals.

He is President & CEO of Radon Environmental Management Corporation and a founding board member and President of the Canadian Association of Radon Scientists and Technologists (CARST). Alan also serves on the Canadian National Radon Action Month Campaign Committee.

Alan has a proven track record of achieving profitable growth through the development and implementation of well-planned initiatives. He is a company builder, a high energy individual, with key strengths in strategy development and building strong customer and stakeholder relationships

Through his leadership at Radon Environmental Management Corp and as President of CARST, Alan is dedicated to the prevention of radon-induced lung cancer and is passionate in making change happen.
