

Plumbing-Backflow Prevention

DATE: Monday, October 3rd, 2016 TIME: 1:40 pm

LOCATION: Shaw Centre-201

GUEST SPEAKERS: Mr. John Barber - City of Ottawa

DESCRIPTION: John Barber - Plumbing Specialist Inspector, City of Ottawa. A key concern of the water industry is the prevention of backflow, which is a flowing back of water, or reversal of the normal flow. If backflow occurs in a public water system, the action can pollute or contaminate the water in that system creating a health hazard for consumers.

This session will look at the history of backflow, case histories and how to prevent them by installing the proper device.
