

Modern Wood Buildings

DATE: Monday, October 3rd, 2016 TIME: 1:40 pm

LOCATION: Shaw Centre-210

GUEST SPEAKERS: Ms Michelle Maybee - Wood-Works!

DESCRIPTION: Michelle Maybee, P.Eng - Wood Works, An overview of recent examples of low, mid and high-rise wood buildings, including a description of the wood components and structural systems used.

BIOGRAPHY: Ms Michelle Maybee

Michelle graduated from McMaster University with a Civil Engineering degree and is a practicing Professional Engineer. She began her career working for an Engineered Wood Manufacturer. Many years of hands-on experience of the design, application and performance of engineered wood products led to an opportunity to establish Maybee Engineering & Design Inc. in 2008.

Michelle joined the Wood WORKS! program in 2010 and re-located to the Ottawa area.

As part of the technical team, she provides information and technical support to the design community, building officials, builders and industry, helping facilitate the increased use of wood products in construction. Michelle is actively involved in numerous key Canadian market development programs including the promotion of wood use in commercial, institutional, industrial and mid-rise construction, as well as the use of innovative wood products and systems, such as Mass Timber.
