

National Farm Building Code Update

DATE: Tuesday, October 4th, 2016 TIME: 1:40 pm

LOCATION: Room-212

GUEST SPEAKERS: Mr. Will Teron - Tacoma Engineers

DESCRIPTION: Will Teron - Tacoma Engineers, This session will focus on issues related to the design, approval and construction of farm buildings. A variety of topics will be discussed with a particular emphasis on the current efforts leading to an update of the 1995 Farm Building Code.

BIOGRAPHY: Mr. Will Teron, Director-Heritage & Investigation

Will is a Professional Engineer and Principal at Tacoma Engineers. With over 25 years of engineering, construction and business experience, Will brings both theoretical and practical experience to all of his projects as a structural engineer. Over the past decade, he has been deeply involved in the building industry development as part of MMAH Building Safety Technical Advisory Panel, PEO Structural Assessment Committee, OMAFRA Farm Fire Advisory Panel and is currently a member of CCBFC Joint Task Group on Farm Buildings responsible for drafting new requirements to the National Farm Building Code of Canada.
